Allow us to charm you with the unexpected beauty of crystal clear streams cutting their path through the hillsides and woods of our Region...

Founded in 2001, Fly Fishing Italy offers the best guiding service available in Italy.

Our guides are all local, with guide / fly fishing experience abroad.

New members, from the Italian National Fly Fishing Team, have recently joined our staff.

This expansion coincides with Italy's growing awareness and responsibility towards its streams installing a "Catch and Release" system. Today more than ever the well known regions of Tuscany and Umbria can provide very good fishing in their "Fly Fishing Only" waters.

Our guides will be pleased to share their expertise in trout fishing with you, whether you are a keen beginner or a professional angler.

Enjoy the calm of nature, typical cuisine, charming country towns - in places hand picked by us to suit your every need: from a day out, to a family weekend.

There are various opportunities to fly fish both in Tuscany and in other regions of Italy.

The prices vary according to the tour chosen by our clients and include guide service, fishing licenses, equipment, Picnic Basket, transportation to and from the fishing spots when near Florence.
